Technical Challenges

Registration Operations: Challenges

- Registration Operations
 - Developing and deploying EPP, WHOIS
- The “E” in EPP
 - Extensions – Blessing and Curse
 - 24 different contact extensions in one implementation!
 - Difficult for registrars
 - No forum for ongoing discussion
 - IETF PROVREG WG closed in 2004, EPPEXT WG not long-lived
- RDAP is coming soon
 - IETF WEIRDS WG specification last call ended 19 September
 - Deployment?
- *How can we be more efficient?*

Proposals for Organization

Open Discussion of Proposals

Lunch

Open Discussion of Next Steps, Actions, and Decisions
