

EPP From a Registrar's Perspective

Or

How we talk to nice registries

-Thomas Stocking, Gandi.net

EPP From a Registrar's Perspective

- EPP is not a problem: it is a solution
- Automation is everything
- Nice registries use EPP
- Anything that entices more registries to adopt standardized EPP, we like.

EPP From a Registrar's Perspective

- XML/REST/Whatever: We actually don't care
 - What's important is transactional nature of the protocol
- Email is good but slow, and there are security issues

EPP From a Registrar's Perspective

- Reference implementation/Testing/Best practices
- Open Source Projects:
 - <http://sourceforge.net/projects/epp-server/>
 - <http://sourceforge.net/projects/epp-rtk/>
- Can we create a software community around EPP?
